Paperless Office Success: Scan, Find & Use

ECR Vault is the fast, easy, HIPAA-compliant way to capture, store, and retrieve your paper files electronically! Access your **ECR Vault** files quickly and easily through seamless integration with OfficeMate and ExamWRITER.

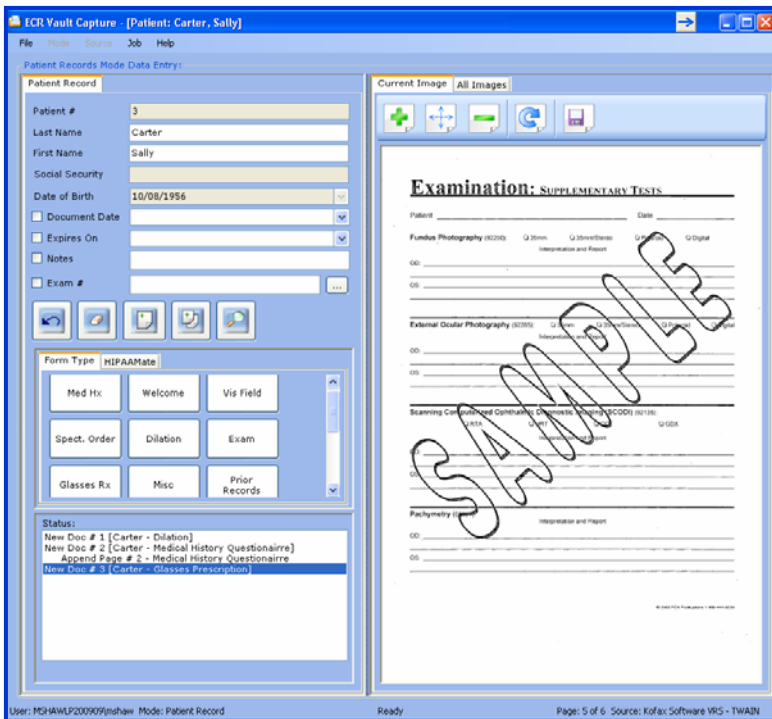

Digitally scan your paper files at your office, or send the paper files to be scanned off site by Comsquared Systems.

ECR Vault can scan a batch documents of varying size in a matter of minutes. **ECR Vault** provides a preview of the images along with a set of tools to aid the user in identifying key information and validating data without having to toggle between application screens.

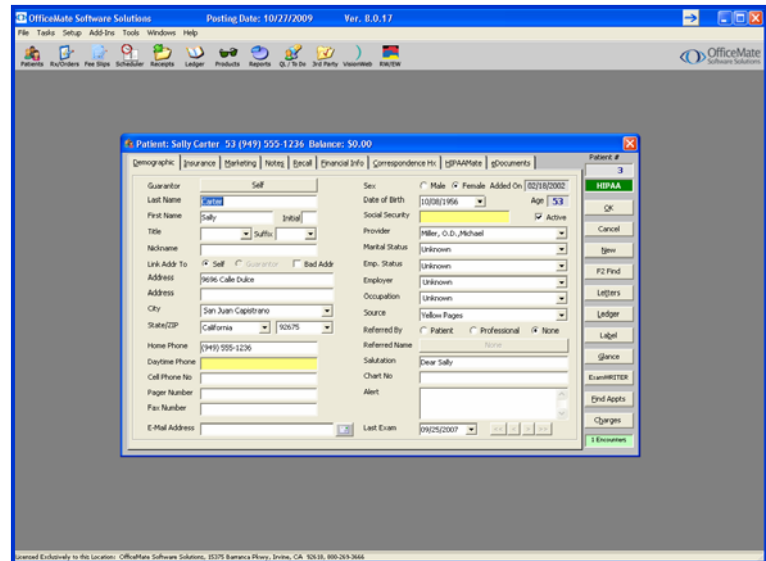

ECR Vault is a feature-rich document-retention system that makes the dream of the paperless office a reality for practices large and small. **ECR Vault** allows you to:

- Scan your files quickly or send them off site to be scanned.
- Easily organize your documents.
- Search for text within your scanned documents.
- With our unique EOB mode, users can attach a single document to multiple patients.
- Fully compatible with DataHealth iBackup, for all your files.
- Remain HIPAA compliant while digitizing your records.

The average clinic will reduce cost by at least \$1,400 a month including the cost of the solution!

Document Scanning & Validation Screen

Patient Information Screen

After scanning in several documents at one time, the user can now begin to index the document.

ECR Vault provides a preview of the images along with a set of tools to aid the user in identifying key information.

This allows the user to validate their data entry without having to toggle between two application screens.

ECR Vault

ECR Vault Advantages:

Batch Scanning

- Ability to scan multiple documents at once in a single batch
 - Scan by document/form type or patient or both!
- Index each image individually
 - By Document Type
 - To include Optical Records!
 - By Index Fields

Content Import

- Import any file type
 - i.e.. Word, Excel, PDF, JPG, Email

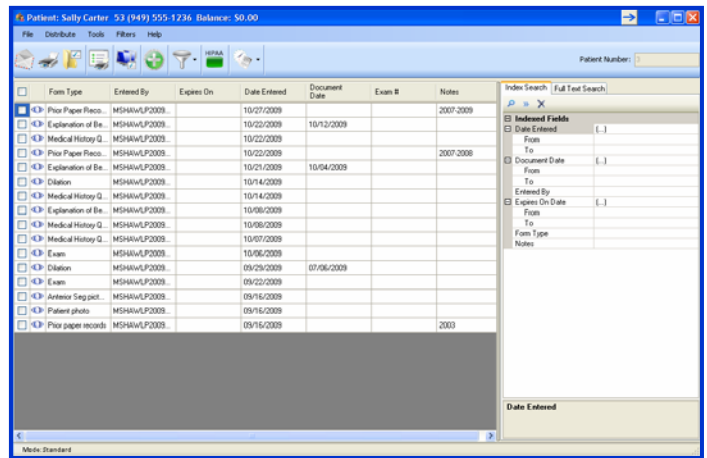

Document Retrieval

- One Click Simple Search from OfficeMate
 - Sortable index fields
 - Document/Form Type
 - Document/Scan Date
- Advanced Search Capability
 - Date ranges
 - Combination searches
- Full content search of the body of the document (not just limited to index fields)

Guaranteed to reduce clinic operating cost.

The average clinic will reduce cost by at least \$1,400 a month including the cost of the solution!

Record Search Screen With Full-Text Search

- The user has chosen to view a record from their search.
- ECR Vault displays the image in a preview pane to the right of the application window.
- ECR Vault also displays the values of the index fields to the left of the application window.
- Users have the ability to mark and distribute documents via email or print.

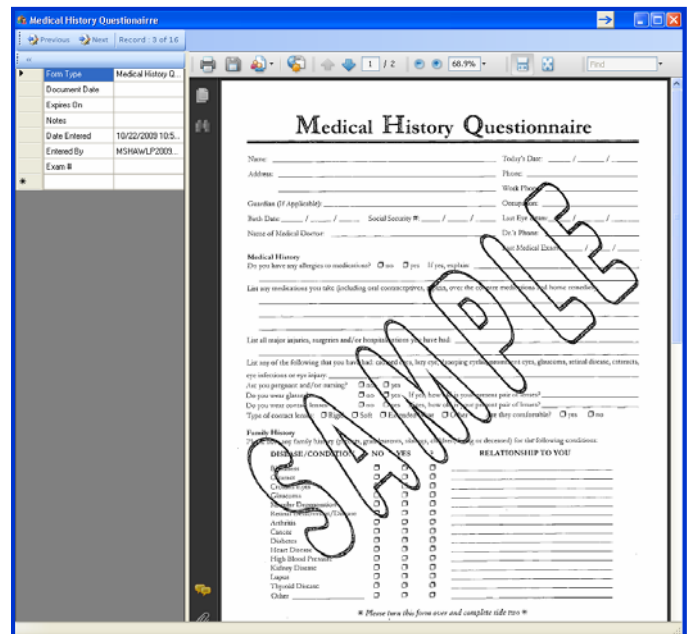

Image Retrieval Screen with Index Fields Visible
